HURST PAYROLL TACKLES PAPER PAYSリップ MOUNTAIN

Traditional paper payslips for employees could become a thing of the past for companies using HURST Accountants' Payroll service.

HURST has launched epayslips, a self service payslip facility that enables employees, if they so choose, to access their payslips directly from a secure website.

The scheme saves paper - and saves time for busy HR and Finance departments who will benefit from fewer visits from employees seeking payslip advice.

Said HURST's Narendra Mistry: "Astonishingly, 400 million payslips are generated each year in the UK. We believe our new epayslips service is the ideal solution to this enormous cost in time and paper. Employees can access their payslips directly over the internet, so reducing employer costs and enabling employers to give a much more convenient service to its employees that is available to them 24 hours a day, 365 days a year."

Under the scheme, HURST Payroll clients arrange for payslips to be automatically uploaded to the secure website. Employees can log on to the website to access both current and historic payslips. Any employees without internet access, or who prefer traditional payslips, can continue to have them produced traditionally by HURST Payroll.

Added Narendra: "Security has been a paramount consideration in the design of the service. It incorporates controls normally associated with online banking services. All employees have their own unique login passwords and can only see their own payslips."

For more information on HURST Payroll's epayslips, contact Simon Brownbill on 0161 477 2474, or email simon.brownbill@hurst.co.uk .
