KOLB+CO. MEDICAL BILLING, LLC UNDER NEW OWNERSHIP

Kolb+Co. SC announces that effective December 31, 2009, its shareholders have sold their ownership interest in Kolb+Co. Medical Billing, LLC (KMB) to New England Medical Practice Management, Inc. (NEMPM). KMB has been renamed Revenex, LLC and will serve as NEMPM's Midwest regional office providing services to medical practices and skilled care facilities throughout Wisconsin, Illinois and Minnesota.

Although Kolb+Co. will have no continuing ownership interest in Revenex, it has entered into a shared services agreement with the new owner. Tom Luken, President of Kolb+Co. SC stated that, "This strategic arrangement will allow Kolb+Co. to focus on our core competencies of providing high quality tax, auditing, accounting and consulting services to our health care clients with a recognition that if they need medical billing or revenue cycle management services, we can refer them to a quality operation that specializes in this type of service."

Kolb+Co.'s health care team remains a strong and effective provider of medical consulting services, including accounts receivable management, compliance assessments, and provider contract and internal control assessments. Additionally, Kolb+Co. Medical Software Solutions, LLC will continue its services of EMR implementation and analysis, as well as CareRevolution and PhoneTree sales.

Kolb+Co. provides integrated business and financial services and coordinated solutions to privately held businesses and their owners. The group, located in Brookfield, has over 100 employees and six affiliated advisory firms.

The union of KMB and NEMPM will enhance the services offered to current and prospective clients, expand the breadth of specialty areas served and provide greater resources to medical practices. Jointly, the two entities currently serve such medical specialties as: anesthesiology, dermatology, gastroenterology, general surgery, internal medicine, long-term care, OB GYN, orthopedics, otolaryngology, podiatry, radiology and urology.

"It is our mission to establish Revenex as the leading revenue cycle management company in the Midwest," said Tom Murphy, president of NEMPM. "I am looking forward to working with the employees of Kolb+Co. Medical Billing to make this a successful endeavor for our clients and for us." NEMPM is a premier health care revenue cycle management company that focuses on customer service, effective control systems, patient friendly billing practices and the utilization of state-of-the-art technology with proven business methodologies.

Kolb+Co. M&A Advisers, LLC served as the exclusive financial adviser to the Kolb+Co. SC shareholders.
